HOW TO GET THERE

Take a taxi to Victoria Peak Garden (San Dan Gong Yuen) or drive and park next to the gardens at the metered parking, but you'll need to get there early to get a spot. Alternatively, you can park at the Peak Galleria for \$38 per hour and take a short taxi ride from there up to the Gardens.

Or make an adventure of it and take the peak tram for the scenic route. Walking from the Peak Galleria to the Gardens is uphill all the way and can be a challenge with a picnic basket and children so it could be best to taxi it.

Once you're at the top of the gardens where the metered parking is, look out for our volunteers in the yellow t-shirts who'll direct you to walk down to the first garden.
